BOARD OF TRUSTEES

Mayor Matthew Traver

Trustee Peter Williams

Trustee John Boucher, Jr.

Trustee Edward Carpenter

Trustee David Cutler

August 10, 2026

NOTICE TO EAST STREET RESIDENTS

Two construction projects affecting East Street are scheduled from August to November 2026.

East Street Water Line Replacement

The water line serving properties from *80 through 126 East Street* will be replaced beginning in *mid-August*. Construction is expected to be completed by the *end of November*.

East Street will remain open during construction, but residents may experience temporary traffic delays and localized disruptions. Residents will receive advance notice of work affecting individual water-service connections or requiring temporary service interruptions.

Lock 8 Way Bridge Replacement and Traffic Detour

Replacement of the *Lock 8 Way bridge near Route 196* will begin in *early August* and be completed by the *end of November*.

While the bridge is closed, all traffic traveling to and from Canalside Energy Park will be temporarily detoured along East Street. Detour traffic is expected to be limited primarily to park tenant employees and agricultural transport vehicles.

The Warren-Washington Industrial Development Agency and the Village of Fort Edward will coordinate with the project contractors to limit disruptions during construction. We appreciate residents' patience while this work is completed.

Thank you.

Sincerely,

Matthew Traver, Mayor
Village of Fort Edward
